# FINISHED VEHICLE LOGISTICS

## All-Encompassing Body Shop Solutions

### Why GEFCO?

GEFCO are able to provide a consistent approach for all vehicle repair solutions by operating large scale body shop repair and defleet operations.

We offer an efficient, quality-led service helping our clients to control costs by working to flexible processes and adhering to bespoke repair standards.

At GEFCO we understand that the vehicle repair defleet process needs to be as efficient as possible to ensure that vehicle off-road time is minimised.

As an expert in this field our solutions deliver consistent service excellence, downtime reduction and a robust repair and defleet management programme.

### Services Available:

- Off-fleet rental defleet programmes
- Buy-back defleet operations
- Used vehicle refurbishment programmes
- Accident management repair services
- In-life repair programmes for fleet operators
- Full SMART repair activities
- Complete body shop facilities, including paint booths
- Crash repair systems
- A skilled team of technical repairers and body shop operatives
- Mechanical repairs and servicing
- Vehicle recovery and transport support
